

GAS CONNECTORS

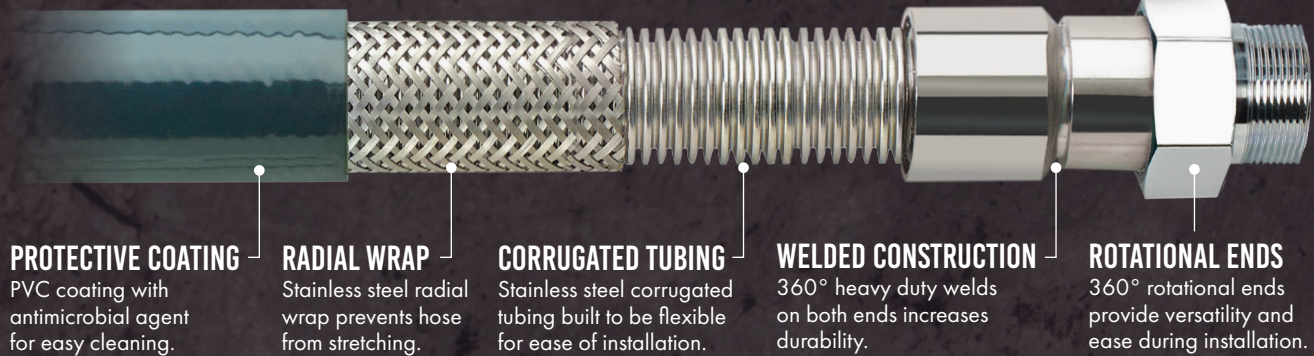

Krowne's Movable Gas Connector is a stainless steel gas hose designed to be used with caster-mounted commercial kitchen equipment. The connector can be used on a wide variety of appliances such as ovens, fryers, ranges, grills and more. Pair it with a Quick Disconnect to easily and safely disconnect while performing routine maintenance or cleaning. Known for their durability and longevity, Krowne's movable gas connectors include a lifetime warranty and are the ideal solution for any commercial kitchen.

Lengths Offered				
24"	36"	48"	60"	72"

Interior Diameters Offered			
1/2"	3/4"	1"	1-1/4"

TRUE TO LENGTH As opposed to industry standard of shortening advertised length by 3-1/2"

PROTECTIVE COATING
PVC coating with antimicrobial agent for easy cleaning.

RADIAL WRAP
Stainless steel radial wrap prevents hose from stretching.

CORRUGATED TUBING
Stainless steel corrugated tubing built to be flexible for ease of installation.

WELDED CONSTRUCTION
360° heavy duty welds on both ends increases durability.

ROTATIONAL ENDS
360° rotational ends provide versatility and ease during installation.

COMPONENTS

FULL PORT BALL VALVE
Required by code to allow manual gas shutoff within 5 ft. of appliance.

QUICK DISCONNECT
Allows for easy disconnect to move equipment for maintenance and cleaning.

CASTER POSITIONING CHOCKS
Creates a home position for gas kitchen equipment to ensure easy return after removal for cleaning and maintenance.

RESTRAINING CABLE KIT
Cable is 12" shorter than hose length to prevent moving appliance too far from wall. Mounting hardware included.

SWIVELKING
Allows gas hose to swivel in tight areas. Reduces stress on the hose from bending and allows full gas flow with no restrictions.

90° STREET ELBOWS
Black malleable elbows allow for versatility in tight applications.

GAS PRESSURE REGULATORS
Available for both liquid propane and natural gas.

REDUCING BUSHING
Converts gas equipment with 1/2" inlet to use 3/4" gas connector for higher BTU flow.
