## Regulator Panels with Wall Brackets

MASTERTAP

### Standard Features

- Allows for a simple way to route beer lines, while maintaining a uniform installation within your walk-in cooler
- Includes tamper-proof, industry leading regulator, anodized with custom british racing green
- Manifold is designed to allow repair or replacement of the regulator body in the field with ease
- Panels are pre-drilled and made up of NSF approved material that can be sealed directly to cooler wall
- Significantly less pressure drop compared to the competition means less foam and more profit
- Panels are pre-drilled and made up of NSF approved material, starlite board, that can be sealed directly to cooler wall
- Stainless steel wall bracket

Model	Overall Length (A)	Width (B)	# of Beer Lines	Weight (lbs)
KBP-W1	11"	8-1/2"	1	6
KBP-W2	11"	17"	2	8
KBP-W3	11"	17"	3	14
KBP-W4	11"	17"	4	18
