Beer**Flex**TM
by Krowne

Introducing the world's first 3D/AR glycol beer system configurator!

Start Designing
Today!

Did you know that once you design your Krowne beer system in BeerFlex, you can physically walk through it with our integrated augmented reality feature! The coolest part about BeerFlex is the rendering of components is 100% accurate. If you choose to run wine through a certain faucet, the panel will update in real-time 3D/AR showing you a wine panel for optimal pouring. Every detail counts!
