BarPro: Boots on the Ground

During Q4 all BarPro's participated in a learning course equipped with five modules furthering their education on our custom tower capabilities with back bar refrigeration.

The course took a deep dive into the quoting process, new procedures regarding towers, and finally was followed by a knowledge check.

This check required an 85% passing grade, followed by a BarPro certificate of accomplishment.

Our Pro's have been out in the field more and more lately putting their knowledge to use on job sites. Take a look at a few Pro's in action!

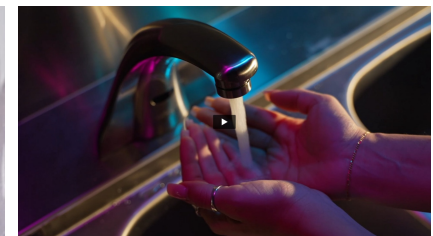

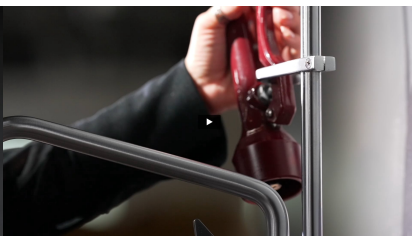

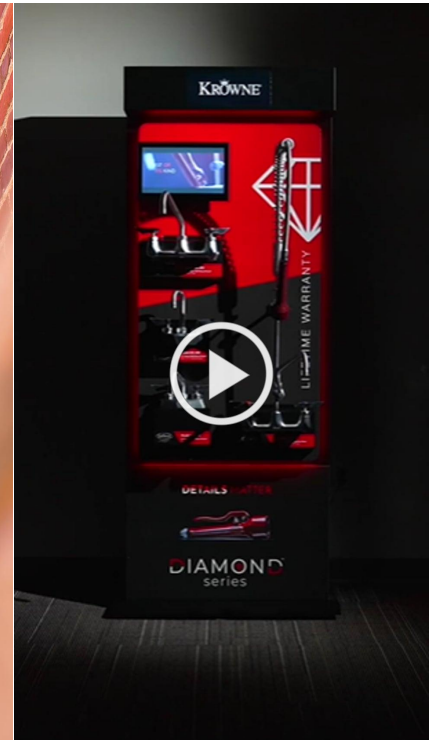

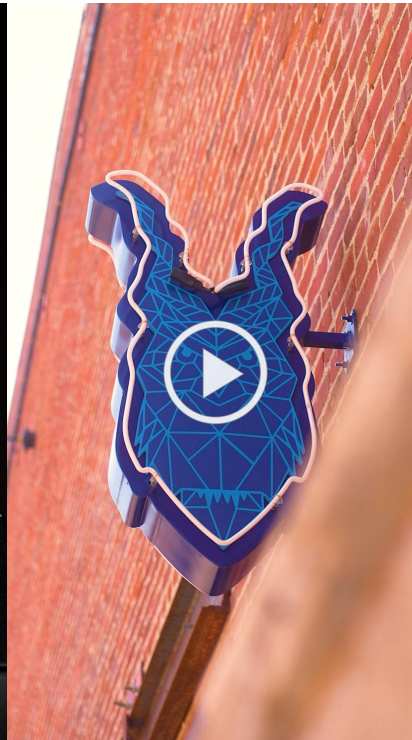

Have you seen a BarPro in the field? Be on the lookout and if you spot one, please send us a photo with the city, state, and job name to BarPro@krowne.com to be featured on social.
