SAY HELLO TO OTTO!

We're thrilled to unveil OTTO, the latest innovation in beverage technology. Designed to streamline service and redefine precision, OTTO is a state-of-the-art robotic dispensing system that delivers speed, consistency, and elevated customer experiences across the hospitality industry. Whether you're looking to boost efficiency during peak hours or ensure perfect pours every time, OTTO is set to revolutionize the way your space operates.

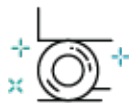

Features

Fully automated resulting in higher profitability & efficiency

2x your revenue with higher speed of service

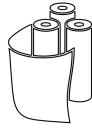

Equipped with 5" casters for easy mobility

Ability to serve 240 pints per hour

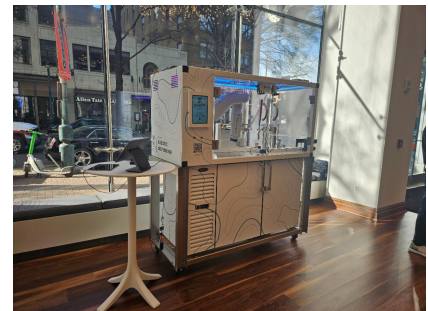

Includes digital interface for ease of use &
an optional POS integration available

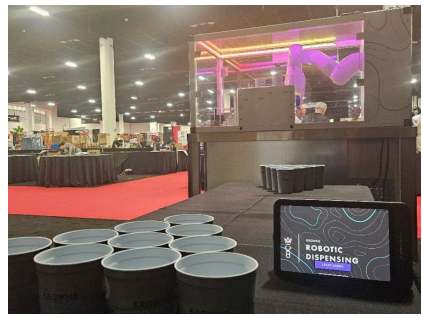

Available in our signature Yin, Yang, or
custom wrap styles to match your
brand's unique essence

OTTO Out And About

OTTO has been turning heads as it travels from conference to showroom event.

Whether its wowing crowds at trade shows with its flawless pour or showcasing advanced customization capabilities, OTTO isn't just a piece of technology — its a glimpse into the future of hospitality!

OTTO FAQs

CAN I USE MY OWN CUPS?

The automation supports a variety of cups from sample sized to 24 oz servings. Reach out for compatibility with specific cup size and manufacturer. The cup droppers only support containers with rims so no glass can be used.

WHAT CAN I CUSTOMIZE?

The entire graphics template can be customized. The unit comes in black or white as shown but allows for custom options to highlight your unique application or advertise your brand partners within your location.

INTEGRATED PAYMENTS?

With direct integrations into leading point of sale systems your staff can focus on the checkout process. After a payment is accepted the automation stores and queues various tickets for fulfillment. Various applications include: front counter POS, kiosk, or table service with handheld tablets.

HOW DO YOU CHECK IDS?

We have recommendations and best practices to maximize the use of your dispenser however its up to the alcohol license holder to best decide how to staff, verify age, and prevent overconsumption. We offer a variety of 3rd party integrations that can verify identity & age.

HOW IS THE MACHINE SUPPORTED?

The automation is accessible remotely and support comes included with your yearly subscription. Menu management, reporting, and remote diagnostics will give you peace of mind to keep your operations running smoothly. The automation and refrigeration comes with 2 year warranty with 5 year on the compressor. See warranty details for more information.

WHAT DRINKS CAN BE SERVED?

Anything on tap! This includes batched and kegged products such as wine, cold brew coffee, nitro tea, and of course beer!

Interested In OTTO?
