Krowne Expansion: Welcome to the Future!

We are excited to unveil our groundbreaking two-year, \$20 million expansion plan aimed at transforming operations with cutting-edge technology.

This ambitious initiative includes the acquisition of two new facilities in New Jersey, adding 120,000 square feet to our operations, as well as the construction of a state-of-the-art "smart factory" leveraging advanced automation and robotic technology. This investment will increase our manufacturing capacity by over 50% and streamline operations, reinforcing our commitment to delivering top-tier products.

Additionally, we will implement a sophisticated robotic conveyor system in our new distribution center to double our picking and packing capacity, ensuring same-day shipping for all in-stock items.

This expansion solidifies our status as an industry leader while empowering our workforce to focus on higher-value tasks, driving operational excellence and rapid scalability!

FaucetFlex™

BY KROWNE

Our **FaucetFlex** configurator presents a cutting-edge solution for the plumbing industry that is crafted with innovation and quality in mind, providing unparalleled flexibility and functionality for users.

FaucetFlex's AR functionality represents a groundbreaking advancement in the realm of equipment technology. This advanced tool allows users to visualize and tailor their faucets in a virtual space, offering a highly immersive and interactive experience. Users can explore various design options, finishes, and features in real-time, enabling them to make informed decisions regarding aesthetics and functionality of their faucet.

FaucetFlex simplifies the customization process and also elevates user engagement through the power of Augmented Reality, leading the way for innovative technology in the plumbing industry.

New Electronic Sensor Faucets

Our **Self-Contained Electronic Sensor Faucet** options are at the forefront of modern, hygienic design, offering touchless operation that enhances sanitation and user convenience all while eliminating the need for bulky control modules.

These faucets utilize advanced sensor control technology that integrates the external control module and solenoid into the faucet body creating an easy-to-install faucet with an ultra clean look.

- **16-645:** 4" deck mount faucet features a contemporary aesthetic with a durable chrome finish, ensuring long-lasting performance.

- **16-655**: single hole wall-mount faucet is designed with a modern look, and elongated spout providing ample clearance and ease of use.

- **16-656**: single hole deck-mount faucet with its ADA-compliant design, makes it accessible for all users, and is perfect for tight spaces.

Our **electronic sensor faucets** are perfect for high-traffic areas such as restaurants, hospitals, schools, and public restrooms, upgrading sophistication, functionality, and cleanliness of today's commercial environments!

Crossover Search

Crossover a Product
Enter a competitor's model number to find Krowne's version of that model.

OR

Need Casters?
Search the manufacturer's model number for the correct Krowne caster.

If no caster appears, please email casters@krowne.com

Disclaimer: Crossovers are not guaranteed for 100% accuracy. Please verify any alternate model result against your required product specification.

Look no Further!

Our **Crossover Search** tool revolutionizes the way businesses find compatible replacement parts for their equipment.

This innovative online search simplifies the daunting task of locating specific components by offering a user-friendly interface that provides comprehensive data. With just a few clicks, users can easily identify the precise parts they need, streamlining the maintenance and repair process.

Whether it's faucets, fittings, or other essential components, our **Crossover Search** ensures efficiency and accuracy. This tool underscores our commitment to customer satisfaction, providing a seamless experience for all professionals in the plumbing industry!
