Design your dream bar in 3D now!

We'd like to share with your our Barflex3D submission of the month! Sent by one of our consultants, this uniquely shaped bar focuses on style and class and mirrors itself perfectly.

Configure your dream bar now.

Krowne Modular Bar Die is designed to significantly reduce installation time while improving overall aesthetics and cleanability. Our modular bar units ship preassembled in sections up to 8 ft. to drastically cut down time and labor while ensuring a sleek finish. Replacing legs with stainless steel panels that mount flush to the floor prevent debris from building up under the equipment.

Product Features:

- · Bartender-side panels removable for drain access
- Fully customizable angles, fillers & overall shape
- Completely assembled and mounted to bar die in the factory to ensure layout accuracy
- · Galvanized structure will not corrode
- Engineered to exact dimensions
- Millwork panels and bar top can be prefabricated to save time during the installation

"I'm back with my friends at Krowne Metal to showcase more of my new mobile bar station!

One of my absolute favorite parts of the bar is the Glass Froster. The Glass Froster uses

CO2 to chill the glass in seconds. It also eliminates and bacteria and odors. I can not express enough how perfect this station is to work out of." - Bad Birdy
