Putting Krowne on Display!

Krowne's range of displays reflects their commitment to providing customizable and efficient solutions for the plumbing industry.

Diamond Series Display: The ultimate display for your counter or showroom. This sleek display brings maximum impact in a small footprint. At less than 33" wide, this display showcases Krowne's premium commercial faucet offering backed with an industry-leading lifetime warranty.

Freestanding Display: This stylish, and compact slot-wall displays our most popular products. Best for central distribution or multi-branch operations.

Gas Connector Display: The best way to showcase the Ultimate Gas Connector kits. This attractive offering is perfect for organizing inventory in a small footprint.

Hybrid Display: This grab-and-go merchandiser brings convenience and quality in a 48" footprint. Offering both Diamond Series and Royal Series solutions with faucets, sinks, parts and accessories. It's the total package!

Did You Know We Offer...

Deck Mount Electronic Sensor Pitcher Filler

The **Pitcher Filler** is a cutting-edge and convenient addition to any commercial kitchen or bar setting. This innovative device utilizes electronic sensor technology to automatically dispense water or other beverages into pitchers or containers, eliminating the need for manual filling and reducing the risk of cross-contamination.

Its deck mount design makes it easy to install and frees up valuable counter space. With precise and efficient dispensing capabilities, the **Krowne Pitcher Filler** enhances workflow efficiency while maintaining strict hygiene standards, making it an indispensable tool for businesses striving for both convenience and cleanliness!

Welcome to the Team!

Meet Owen Anderson - Plumbing Sales Manager for the Northeastern Region

Owen was born and raised in Wantagh, NY located on the south shore of Long Island. He is a recent graduate of SUNY Oswego where he received a bachelor's degree in criminal justice with a minor in pre-law.

His journey began in sales when he joined GOAT USA, a lifestyle apparel based out of Long Island, NY. There Owen was a lead sales representative, traveling all over the continental U.S. attending national lacrosse tournaments to help grow the brand through networking and exposure. He accomplished this by setting up mobile stores with various products depending on the demographic and weather, as these events were all outside rain or shine.

While GOAT USA was his passion, Owen picked up plumbing while working underneath a master plumber at Jack Berleth & Sons. This opened a new door for Owen that equipped him with tremendous knowledge of the plumbing industry and ultimately lead him to join the Krowne Team.

A message from Owen, "I am extremely excited and energized for this opportunity and look forward to working with you all at Krowne!"
