

QUOTE REQUEST FORM

The following information is required to prepare a quote. The key to building an efficient bar is to give us as much information as possible. For quote requests with a drawing and specifications already complete, please fill out parts 1 – 7. **Quote requests for a new bar design and layout must complete the entire form.**

Please supply the following information and select the appropriate boxes.

I. QUOTE FOR EXISTING DRAWING AND SPECIFICATIONS

- Clearly mark project name, company name and your name on drawing or any documentation.
- Please supply a scaled drawing with any specifications. Drawings with a radius or angles must be marked with the correct dimensions and angles for the inside bar die wall. **Our preferred method of receiving a drawing is in an AutoCad Dwg file by e-mail.** Please send to quotes@krowne.com. This is the easiest and allows you to drop our completed drawing into your plan. Please note on quote request that drawing is being sent by e-mail.

If a scaled drawing is not available, please note all dimensions clearly.

- List all accessories required: Sliding Covers Side Splashes Condiment Trays Perforated Sink Baskets

- Krowne Royal Series (Deluxe) 1800 Series (24" front to back including speedrail) *Most Popular*
 2100 Series (26" front to back including speedrail)
 Standard Series (Budget) 1800 Series (22 5/8" front to back including speedrail)
 2100 Series (25" front to back including speedrail)

- Cold Plates for Ice Bins (*Most health departments now require them and we highly recommend them.*)
 Krowne Royal Series Built-in 8 circuit cold plate Built-in 10 circuit cold plate
 Standard Series Built-in 7 circuit cold plate Built-in 8 circuit cold plate

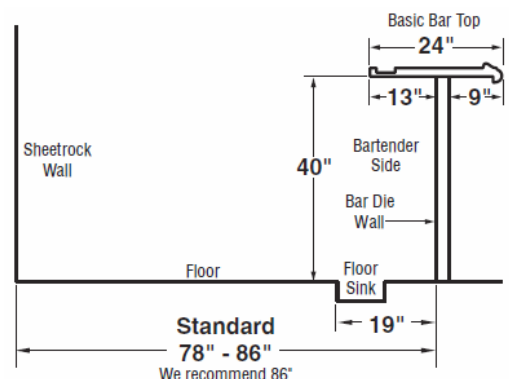

- Ice Bin Depth 12" Deep *Most Popular* 15" Deep
- Speedrails Single *Most Popular* Double

- Number of draft beer towers desired 1 2 3 4

- Electric Outlet Locations: Electric outlets are required below all blender stations, refrigeration and electric glass washer equipment. Outlet should be 12" off the floor.

- Floor Drain Locations (**IMPORTANT**): If floor sink drains are already in place, please mark them on the drawing. The standard is 8" x 8" or 12" x 12" with half grates. The front edge of floor sink should be 19" from bar diewall. The general rule is to not put them under ice bins and place them in a location where the most drains can be connected in the shortest distance. Drain lines cannot run under bottle coolers or mug frosters due to space limitations. It is highly recommended to have an additional flush floor drain for cleaning and any spillage located away from workstations due to sloped floor.

- Please make sure that your bar manufacturer does not use any vertical supports under the top of the bar. Use this drawing as a guide to proper bar manufacture. The standard walkway space is 30" - 38". We recommend 36" - 38" to meet ADA requirements and to allow for door swing of refrigeration. Bar die to rear wall should be 78" - 86" if Royal 1800 and single Speedrails are used.

QUOTE REQUEST FORM

II. ADDITIONAL INFORMATION REQUIRED FOR NEW BAR DESIGNS

12. Number of bartenders 1 2 3 4
13. Number of required workstations 1 2 3 4
14. Lift Gate Location: The standard size is 24"-30" but ADA's requirement is 36". Please mark location and size on drawing
15. Service station location for waiter/waitress pick-up. Please mark location on drawing.
16. Glass washing procedure Bar Sink Glass Washer Kitchen
17. Hand sink required for Board of Health. Blender/Dump sink is usually approved for a hand sink
 Side Splashes Required
18. Quantity of Bottle Coolers 1 2 3 4
 Size: 24" 48" 72" 96"
 Finish: Black Stainless Steel Stainless steel with full stainless steel interior
19. Quantity of Mug Frosters 1 2 3 4
 Size: 24" 36" 48"
 Finish: Black Stainless Steel
 Options: Casters
20. Quantity of Back Bar Coolers 1 2 3 4
 Size: 36" 48" 60" 72" 84" 96" 108"
 Compressor: Self-Contained ^{Most Popular} Remote
 Door Finish: Black Stainless Steel Glass with Black Glass with Stainless
 Top: Unfinished ^{Most Popular} Stainless Steel
 Cabinet Sides: Black ^{Most Popular} Stainless Steel
 Options: 4-6 Legs Casters Kick Plates 1 Year Extended Labor Warranty
